

A signature scent for your studio or space

Pure botanicals. Professional quality. Meaningful rituals.

Swan Botanica develops bespoke botanical scent for studios, treatment rooms, salons, workplaces and events. We formulate in small batches in Western Australia using considered botanical oils - created for aroma, atmosphere and the ritual of a space.

What we offer

Custom formulation

A scent developed around your space, your brand and the feeling you want guests to leave with.

Professional supply

Consistent, repeatable batches with clear documentation, so what you approve is what you receive.

Flexible minimums

Begin with a single sample, then scale to ongoing supply. No large volume commitment required to start.

How we work

1. Consultation

A short conversation about your space, your brand and the scent families you are drawn to.

2. Formulation and sample

We blend your scent and share the aromatic profile and a trial sample for your feedback.

3. Approval and supply

Once approved, your scent is produced in our signature amber glass with matte black caps and supplied on an ongoing basis.
